Strategic Radiology Chief Operating Officer Randal Roat Recognized as RBMA Fellow

Leader of SR recognized by RBMA and peers as significant contributor to radiology profession.

St. Paul, MN - June 27, 2012 - Strategic Radiology (SR) COO Randal Roat has been recognized as a Fellow of the Radiology Business Management Association (RBMA). Roat and the rest of the 2012 class of Fellows were inducted at the RBMA 2012 Radiology Summit in May in Orlando, FL.

“RBMA is the leading radiology business management organization in the United States, and it’s been my pleasure to be involved with them for over 20 years,” said Roat. “There is no greater honor to have bestowed upon someone than the recognition of their peers. I could not be more humbled and appreciative of being recognized as an RBMA Fellow.”

The RBMA Fellowship program recognizes the significant contributions made by RBMA members to the association and the profession. Fellow of the RBMA (FRBMA) is a prestigious accomplishment to be held in high regard by RBMA and one’s peers. Accordingly, RBMA has established a high bar for its Fellows. Each Fellow candidate is judged according to his/her educational accomplishments (achieved and ongoing development), years of RBMA membership, professional service to RBMA, and contributions to the profession.

Roat is a past recipient of RBMA’s Calhoun Award and has served as presenter of many education sessions, RBMA meetings, and trade shows. He is also a frequent contributor to various industry newsletters and publications. In addition to his background in operations, product development and strategy, Roat is also well versed in technology development, physician relationship management, and government regulatory and legislative issues related to radiology.

RBMA is a not-for-profit professional organization serving individuals whose primary business involves radiology. The association serves as a community that connects members nationwide,

provides valuable information and education, and develops and offers practice-related resources. For more information about RBMA, visit rbma.org.

Strategic Radiology (SR) consists of 16 radiology group practices representing more than 1,000 radiologists. Based in St. Paul, MN, SR's goal is to achieve higher quality patient care and more cost-efficient delivery of medical imaging through a collaborative approach of shared data and best practices, interchanging clinical expertise, and consolidating certain practice expenses.

More information can be found on the SR website at www.strategicradiology.com.
